It's also one that is really close to my heart and something that I see as really important. For those of you who are just learning about our four areas of service, it's easy to look at a four x 6 wedding reception as simply: cooking and service. There are some areas that we have very high and very low standards in, in terms of the service we offer. For the most part, we like to think that we are good at creating a unique and memorable experience for our customers. Which is why we are the trusted business in the community. Our starting point is always going to be that it has to look and taste great. The food is always going to be delicious and the flavors going to hit your taste buds the right way. Our level of service is going to depend on how well you and your guests receive this experience. I always tell my team, that there are a million ways to cook a turkey, but there are only one or two ways to do it right. I would say that the service that we offer is also linked to two things. The first is that it is going to be a very special event that you and your guests will have for the rest of your lives. It is a party that has been planned down to the last detail, and that is never going to change. The second thing is that your wedding reception is also one of the first and one of the last events that your guests are going to experience at your wedding. Our team is trained to be on their best behavior, and we pride ourselves in that. We are also always going to be comfortable enough to talk to you as much as you want, and even if there are times that we need to set boundaries, you 82157476af
